CABLES—
Azores, 100, 138, 184, 241
Communications, 673
Dielectric, Rubber compounds *v.* vulcanised rubber as a, 108
East Coast of Central America, 242
Electric, Carrying capacity of submerged, buried, or suspended in the air, by A. E. Kennelly, 328
Enterprise, 672
French enterprise, 615
From bad to worse, 660
Grapnel, Stallibrass's submarine, 325
Hooper's core for submarine, 326
Interrupted Atlantic, 480, 488
Interruptions, 590, 646
New, 590
„ Atlantic, 564
New Caledonia, The, 423
New Pacific (Australia-Canada), 127, 186, 265, 449, 480, 561, 645
Pacific, Conference, 672
Preece's improvements in submarine telegraph, 65
Railways and electric railways, 463
Rates to the Cape, 449
Rupture by high alternating tension, 13
Tramway at Brixton, 42

Cadmium and ammonium chloride battery, 450
Calories per C.P. of various sources of light, 562
Calorimeter, A coal, 497
Cambridge Summer Meeting, 100
Campiche's electric regulator clock, 429
Cancer (Rodent), Treatment of by electrolysis, by J. Inglis Parsons, M.D., &c., 62
Candle-power of searchlights, by C. P. Steinmetz, 552, 607
Capacity of circuits, Mutual induction and, 371
Carburation of iron by cementation, Influence of electricity on the, 577
Car catastrophe in America, An electric, 480
Carrying capacity of electric cables, submerged, buried, or suspended in the air, by A. E. Kennelly, 328
Carter, E. Tremlett, on Arc lighting (*continued* from Vol. xxxii.), 4, 60, 116, 200, 365, 500, 549, 662
Casings (stoneware) for electric mains, 158
Cataphoresis, by Prof. Edwin J. Houston, 151
Caustic and soda, Electrolytic, 385
Cell, The Fort-Washburn storage, 108
Central London Railway, 590

CENTRAL STATIONS.—
Application of producer gas engines to, 35
Blackpool, 413
Bolton, 671
Bristol, 188
Cambridge, 236, 322
Development and transmission of power from, by Prof. W. Cawthorne Unwin, 352, 405. 432, 457, 472, 515
Dundee, Visit to, 127
Economy of small, 59
Fires in, 333
in France, 647
Furstenfeld-Bruck, 66
Future economy in, 225
Gas power for, 31
Glasgow, 325
Kelvinside, 244
Manchester, 270
Recording tachometer for, 460

Chamber of delegates at Chicago, 380
Chamberlain, R. N., on Statistical notes on the electric launches at the World's Fair, 523
Chance for amateurs, A grand, 42
Change of address, 348, 374, 426, 454, 565, 650
Charges on the electric railway, 185
Charterhouse Science and Art Schools and Literary Institution, 292
Chemical change, Electrical facts explain a, 451
Chicago Delegates, Chamber of, 380
„ Exhibition, Closing of the, 479
„ „ The cost of, 293
„ „ Electrical Jury, 293
Chicago Exhibition, The great German search lights at, 300
„ Exhibition Jury of Awards, 126, 293
„ Exhibition Jury of Awards formulate dynamo tests, 202
„ International Congress, 73, 242, 264
„ „ Congress, Discussion on the programme, 157
„ Railways, 645
„ Steam engines at the World's Fair, 9, 182, 364, 405
Chimatto enamel, 295
Chronology, 242
Chloride battery, A cadmium and ammonium, 450
„ electrical storage battery, 445, 508
„ of lead and E.P.S., 371
„ of lead batteries, 479
„ of lead secondary batteries, by Emile Andreoli, 494
Christmas-box, Electrolytic, 668
Circular ferro-magnetic polarisation, 72
City and Guilds of London Institute, 127, 468
„ „ of London Institute, Necessity for a new subject of examination at the, by W. Perren Maycock, 428
